## INVESTMENT OBJECTIVE

To increase the value of its shares, over the long term, through growth in the value of its investments.

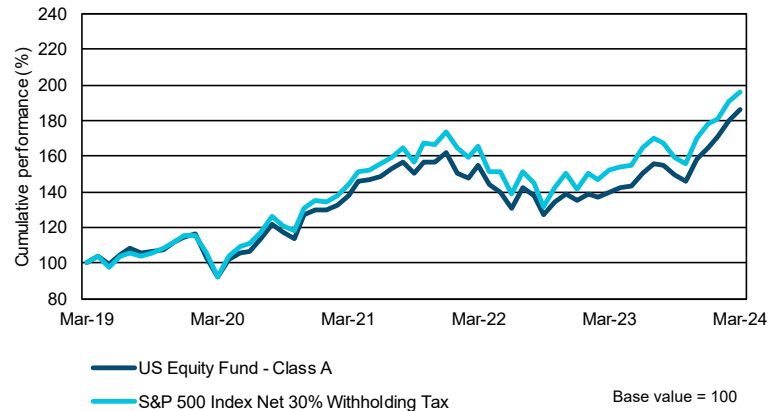

## INVESTMENT PROCESS

The fund is actively managed and invests mainly in a diversified portfolio of shares of companies in the United States. Although the fund does not have sustainable investment as an objective, the promotion of environmental and/or social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments, as defined by the SFDR. In addition to the E/S characteristics promoted, the fund also applies the investment manager's proprietary responsible screen (the T. Rowe Price Responsible Exclusion List). The fund may use derivatives for hedging and efficient portfolio management. For full investment objective and policy details refer to the prospectus. The manager is not constrained by the fund's benchmark.

**Past performance is not an indication of future performance.** Annualised performance shows longer term performance rescaled to a 1 year period. Annualised performance is the average return per year over the period.

Source for performance: T. Rowe Price. Fund performance is calculated using the official NAV with distributions reinvested, if any. Sales charges, taxes and other locally applied costs have not been deducted and if applicable, they will reduce the performance figures.

Index returns are shown with gross dividends reinvested.

Effective 1 June 2019, the "net" version of the indicative benchmark replaced the "gross" version of the indicative benchmark. The "net" version of the indicative benchmark assumes the reinvestment of dividends after the deduction of withholding taxes.

The manager is not constrained by the fund's benchmark, which is used for performance comparison purposes only. The investment policy of the fund changed as at 1 October 2022, with the addition of a minimum commitment to sustainable investments. The performance prior to this date was achieved without this consideration. The investment performance is for illustrative purposes only. The investment performance is calculated by taking the actual initial fees and all ongoing fees into account for the amount shown and income is reinvested on the reinvestment date.
