

STONEHAGE FLEMING EQUITY PRESCIENT FUND

OUR FOUR FUNDAMENTAL QUALITY PILLARS - IDENTIFYING GLOBAL BEST IN CLASS BUSINESSES

INVESTMENT OBJECTIVE

The aim is to maximise investor total return over the long term through a focused portfolio of high quality JSE listed equity securities.

The Fund has adhered to its policy objective.

FUND FEATURES

A concentrated equity-only portfolio that may invest across all sectors of the JSE. The portfolio will hold between 20 – 30 companies.

FUND COMMENTARY

July marked a somewhat quieter month on the JSE in terms of company earnings releases, but corporate activity continued throughout the month.

After years of delays, Remgro announced that the Competition Commission has removed its objection to the proposed acquisition by Vodacom of a 30% interest in fibre network operator Maziv, an investment in which Remgro holds an indirect 57% stake. The acquisition, first announced in 2021, is now likely to proceed with a set of amended conditions. The transaction will now move to the Competition Appeals Court on an unopposed basis, and ultimately see Remgro's effective stake reduced to ~35% after Vodacom completes its investment.

AVI's trading update for the year ended 30 June 2025 reported operating profit growth, despite a demanding base from the prior period. Group revenue grew by +1%, but stringent cost control saw operating profit accelerate to +7.8%. A recovery in fishing performance from I&J, as well as continued delivery in the Entyce Beverages business offset the declines experienced in the fashion and personal care segments. AVI is expecting headline earnings per share growth of between 5-7% for the full year.

Boxer released a trading update for the 17-week period to 29 June 2025 reporting turnover growth of 12.1% (3.9% like-for-like). Boxer has opened 7 Superstores and 10 liquor stores during the four-month period, and cites consistent market share gains during the period. The business remains on track to deliver on its full year guidance of low-teens turnover growth in FY26.

Lastly, Pepkor shareholder, Ibex Topco (formerly Steinhoff) exited their remaining 28% stake, consisting of 1 billion shares.

Data sourced from Company Financials and FactSet (as at 31/07/2025).

Opinions expressed represent the view of SFIM(SA) at the time of preparation. They are subject to change and should not be interpreted as investment advice.

Past performance is not a guide to future performance.

¹ For periods longer than one year, returns are annualised. Annualised performance is the weighted average annual compound growth rate over the period measured.

² Benchmark is the JSE Capped SWIX Index. (Since 09/10/2023).

³ Fund Inception Date: 1 June 2016.

⁴ The lowest and highest annualised performance numbers are based on 10 non-overlapping one year periods, or the number of non-overlapping one year periods from inception where performance history does not exist for 10 years.

Source for all performance is Bloomberg and Stonehage Fleming Investment Management (South Africa). Third parties (including Bloomberg and FactSet) whose data may be included in this document do not accept any liability for errors or omissions. All performance is stated net of fees.

INVESTMENT STRATEGY

- Seek to identify exceptional businesses with sustainable long-term growth prospects and durable competitive advantages
- Fundamental, bottom-up research process
- Focus on quality of management, return on invested capital, free cash flow generation and balance sheet strength
- Predominantly larger capitalisation businesses; will consider exceptional smaller businesses that meet liquidity limits
- A concentrated, high-conviction portfolio
- Buy to hold orientation alongside disciplined selling process
- Benchmark agnostic, no active trading, no leverage, no hedging

SUITABLE INVESTORS

The portfolio is suitable for investors who:

- Have a time horizon that exceeds five years
- Seek JSE listed equity exposure
- Have discretionary wealth and require little short-term income
- Can tolerate short-term market fluctuations in pursuit of maximising long-term total return
- Are comfortable to grant the portfolio manager a large degree of investment discretion

FEES¹

Minimum Investment (Platform)	No Minimum
Minimum Investment (Direct)	R 10,000
Maximum Initial Advice Fee	N/A
Maximum Annual Advice Fee	1.15%
Investment Manager Initial Fee	N/A
Investment Manager Annual Fee	1.15%
Total Expense Ratio (TER)	1.20%
Transaction Costs (TC)	0.12%
Total Investment Charges (TIC)	1.31%

¹ Advice fees are negotiable between the client and their advisor. Annual advice fees are paid through a repurchase of units from the investor. The fund is available through certain LSPs which levy their own fees. Total Expense Ratio (TER) PERIOD: 1 April 2022 to 31 March 2025. Total Expense Ratio (TER) | 1.20% (A1 class) and 0.79% (A2 class) of the value of the Financial Product was incurred as expenses relating to the administration of the Financial Product. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Transaction Cost (TC) | 0.12% of the value of the Financial Product was incurred as costs relating to the buying and selling of the assets underlying the Financial Product. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER. Total Investment Charges (TIC = TER + TC) | 1.31% (A1 class) and 0.91% (A2 class) of the value of the Financial Product was incurred as costs relating to the investment of the Financial Product. Disclosed performance information is calculated after all fees and costs deducted. All fees inclusive of VAT where applicable.

DISCLOSURES AND ADDITIONAL INFORMATION

This document is for information purposes only and does not constitute or form part of any offer to issue or sell or any solicitation of any offer to subscribe for or purchase any particular investments. Opinions expressed in this document may be changed without notice at any time after publication. We therefore disclaim any liability for any loss, liability, damage (whether direct or consequential) or expense of any nature whatsoever which may be suffered as a result of or which may be attributable directly or indirectly to the use of or reliance upon the information.

Management Company: Prescient Management Company (RF) (Pty) Ltd. This portfolio operates as a white label fund under the Prescient Unit Trust Scheme, which is governed by the Collective Investment Schemes Control Act.

This document has been issued by Stonehage Fleming Investment Management (South Africa) (Pty) Ltd (authorised and regulated in South Africa, FSP No: 42847).

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER.

The Manager retains full legal responsibility for any third-party-named portfolio. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Please note that all documents, notifications of deposit, investment, redemption and switch applications must be received by Prescient by or before 13:00 (SA), to be transacted at the net asset value price for that day. Where all required documentation is not received before the stated cut off time Prescient shall not be obliged to transact at the net asset value price as agreed to. Funds are priced at either 3pm or 5pm depending on the nature of the Fund. Prices are published daily and are available on the Prescient website.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request.

For any additional information such as fund prices, brochures and application forms please go to www.prescient.co.za

This portfolio operates as a white label fund under the Prescient Unit Trust Scheme, which is governed by the Collective Investment Schemes Control Act.

The Management Company and Trustee are registered and approved under the Collective Investment Schemes Control Act (No.45 of 2002). Prescient is a member of the Association for Savings and Investments South Africa.
