### The Investment Opportunity

The Reitway Enhanced Global Property Prescient QI Hedge Feeder Fund is an investment product that provides investors with a geared exposure to a portfolio of REITs and REIT-like equities.

It is a South African domiciled CIS Hedge feeder fund investing in the Reitway Enhanced Global Property Fund (MLT).

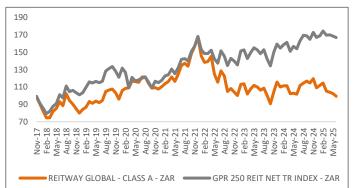

Investors need to be aware that the gearing magnifies returns (and losses) and is aimed at those seeking geared upside to a Global Property Fund.

In addition, investors benefit from the Reitway Enhanced Global Property Fund (MLT) being a roll up fund, where the excess income earned over and above the cost of the interest is not taxed

### **Fund objectives**

The fund's primary objective is to provide investors with an exposure to the listed global property market through investments that have an ability to provide both high levels of income and long-term capital growth.

#### **Illustrative Performance**

The investment performance is for illustrative purposes only. The investment performance is calculated by taking the actual initial fees and all ongoing fees into account for the amount shown and income is reinvested on the reinvestment date
