

# OMBA Global Thematic Fund

A sub-fund of Omba Investments ICAV

## 2Q 2025 Minimum Disclosure Document and General Investor Report

Investors should read the Key Investor Information Document and Prospectus prior to investing.

### INVESTMENT OBJECTIVE

The investment objective of the Fund is to achieve capital appreciation over the long term. The Fund aims to achieve this objective through investing (primarily through collective investment schemes structured as exchange traded funds) in a **GLOBAL** and **DIVERSIFIED** portfolio of equity securities allocated across regions, countries, and sectors.

	<b>GROWTH</b>	Investing in thematic equities gives exposure to innovation and disruptive trends
	<b>DIVERSIFIED</b>	ETFs minimise concentration risk and enable diversified exposure to themes
	<b>ACTIVE</b>	An active approach opportunistically captures market dislocations and trends
	<b>PROFESSIONALLY MANAGED</b>	Omba are experienced investors in portfolio construction and risk management
	<b>GLOBAL</b>	Globally diverse with a focus on broad regional exposure and no home bias
	<b>COST EFFECTIVE</b>	Maximise efficiencies through low-cost instruments and a capped TER

- South Korean Won
- Brazilian Real
- Other

## MARKET COMMENTARY

Global markets maintained solid momentum (MSCI ACWI, +4.5% MoM, +11.7% QoQ) in June as investors become more comfortable with risk assets despite ongoing uncertainty in trade and geopolitics. US equities led performance among developed markets with blue-chips (S&P 500, +5.1% MoM, +10.9% QoQ), tech (Nasdaq 100, +6.3% MoM, +17.9% QoQ) and small-caps (Russell 2000, +5.3% MoM, +8.1% QoQ) all enjoying strong returns. Within the tech space, Semiconductors were particularly strong in June making them the best performing theme for the month, with individual names such as Micron Technology (+30.5% MoM), AMD (+28.2% MoM) and Taiwan Semiconductors (17.6% MoM) leading the pack. Electric, autonomous vehicles and battery technology was the next best-performing theme for the month as underlying holdings such as Joby Aviation (+34.9% MoM) and Bloom Energy (+29.5% MoM) benefited from risk-on sentiment. The Chinese technology and internet sector also performed well in June despite uncertainty in Sino-American relationships. Most positions held within the fund were up in June. European Health Care was a notable exception. The sector has underperformed in recent months as the Trump administration has continuously threatened the sector (both domestic and international) but is yet to announce any tariffs. Major index constituents such as Roche, Novartis, Novo Nordisk and AstraZeneca trade at low multiples compared to their history, in our opinion representing an opportunity.

## SECTOR BREAKDOWN

\*Percentages relate to the non-cash portion of the portfolio

- Information Technology
- Health Care
- Industrials
- Consumer Discretionary
- Communication Services
- Financials
- Utilities
- Materials
- Consumer Staples
- Real Estate

# OMBA Global Thematic Fund

A sub-fund of Omba Investments ICAV

## GLOSSARY OF TERMS

<b>Annualised Volatility</b>	Annualised volatility is a statistical measure of the magnitude of the historical daily (logarithmic) returns of the portfolio NAV, scaled to be representative of a full calendar year using a 256-day count. Only the NAV of trading days are used in calculating this measure.
<b>Annualised Return</b>	Annualised return is a measure which rescales returns, for periods greater than one year, to a 12-month geometric average return.
<b>Best/Worst 12-Months</b>	Respectively, the maximum and minimum % change in NAV Per Share over a 12-month period using daily performance data.
<b>NAV Per Share</b>	Net Asset Value (NAV) Per Share represents the total market value of the portfolio less liabilities and divided by the number of outstanding shares.
<b>Positive / Negative Month(s)</b>	A month is positive (negative) if the NAV Per Share, of a specific share class, increases (decreases) in value from the last day of the previous month to the last day of the following month.
<b>Risk Indicator</b>	The risk indicator for the Fund is set at 4 as this reflects the market risk arising from the proposed investments. The risk indicator is determined using historical data or, where historical data is not available, using simulated historical data. Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not a target or a guarantee and may change over time. A category 1 fund is not risk free, the risk of loss is small but the chance of making gains may also be limited. With a category 7 fund, the risk of losing money is high but so also is the possibility of making gains.

## FUND SPECIFIC RISKS

**Equity investment Risk:** Value of equities (e.g., shares) and equity-related investments may vary according to company profits and future prospects as well as more general market factors. In the event of a company default (e.g., bankruptcy), the owners of their equity rank last in terms of any financial payment from that company.

**Currency Risk:** The change in price of one currency in relation to another. This is common where you invest using multiple currencies, either intentionally or not (i.e., underlying holdings of a UCITS would be un-intentional). Change in exchange rates may have an adverse effect on performance.

**Geographic/Sector Risk:** Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information.

**Market Risk:** The Fund is subject to market fluctuations and the risks inherent in all investments and there can be no assurance that an investment will retain its value or that appreciation will occur. The price of shares and the income from shares can go down as well as up and investors may not realize the value of their initial investment.

## CONTACT DETAILS

**Investment Manager & Distributor:** Omba Advisory & Investments Ltd, **Registration Number:** 775647, **Address:** Cargo Works (unit 4.04) 1-2 Hatfields London, SE1 9PG, United Kingdom. **Telephone:** +44 (0) 203 176 8400. **Email address:** [info@ombainvestments.com](mailto:info@ombainvestments.com) **Website:** [www.ombainvestments.com](http://www.ombainvestments.com)

**Management Company & Administrator:** Prescient Fund Services (Ireland) Limited, **Registration Number:** 462620, **Physical Address:** 35 Merrion Square East Dublin 2, Ireland. **Postal Address:** 33 Sir John Rogerson's Quay, Dublin 2, Ireland. **Telephone:** +353 1 676 6959. **Email address:** [info@prescient.ie](mailto:info@prescient.ie) **Website:** [www.prescient.ie](http://www.prescient.ie)

Copies of the prospectus (including the UK and Swiss Country Supplement, the supplement for the Fund) (together the "Prospectus"), the Key Information Documents ("KIDs") and the daily share prices are available free of charge from the Manager. The A and B share classes are approved offshore reporting funds in the UK. For further details please visit <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

The Fund is a sub-fund of the Omba Investments ICAV and is authorised by the Central Bank of Ireland as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No. 352 of 2011) as amended. Authorisation by the Central Bank of Ireland shall not constitute a warranty as to the performance of the Fund and the Central Bank of Ireland shall not be liable for the performance or default of the Fund. The Fund is authorised for distribution to non-qualified investors by the Swiss Financial Market Supervisory Authority (FINMA).

## DISCLAIMER

The fund adhered to the policy objectives as stated in the Supplemental Deed in terms of allowed investments.

Any offering is made only pursuant to the relevant offering document, together with the current financial statements of the relevant sub-fund, and the relevant subscription application forms, all of which must be read in their entirety together with the Prospectus, Supplements and the KID. No offer to purchase shares will be made or accepted prior to receipt by the offeree of these documents, and the completion of all appropriate documentation. Please note that all documents, notifications of deposit, investment, redemption, and switch applications must be received by the Manager by or before 10h00 (Irish time) each business day. Where all required documentation is not received before the stated cut off time, the Manager shall not be obliged to transact at the net asset value price as agreed to and the application will be held over until the next Dealing Day. Funds are priced at 17h00 (New York Time). Prices are published daily and available from the Manager.

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the risk so including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio ("TER") reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management and administration of the Fund. A higher TER does not necessarily imply

a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs. During the phase in period TERs do not include information gathered over a full year. These amounts may change without any notice although within the confines of the Fund Supplement.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investors performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request.

This document is for information purposes only and does not constitute or form part of any offer to issue or sell or any solicitation of any offer to subscribe for or purchase any investments or any advice. Opinions expressed in this document may be changed without notice at any time after publication. Omba therefore disclaim any liability for any loss, liability, damage (whether direct or consequential) or expense of any nature whatsoever, which may be suffered as a result of, or which may be attributable directly or indirectly to the use of or reliance upon the information. Independent financial advice should be sought as not all investments are suitable for all investors. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees.

Upon sourcing the underlying holdings within each of the ETFs: 63.4% are from 30 Jun 2025 and 36.6% are from 2 Jul 2025. Price-Earnings Ratio data greater than 80 were capped at 80 (this amounts to 4.08% of Equity data).
