

KEY INFORMATION

TITLE:	Software Developer
REPORTING LINE:	Team Lead
LOCATION:	Westlake, Tokai
BUSINESS UNIT:	Prescient Fund Services

PURPOSE OF THE ROLE

This is an opportunity to join the Development team of Prescient Fund Services who are looking to develop an industry-leading policy and fund administration platform to service clients, brokers, managers and administrators.

DUTIES AND RESPONSIBILITIES

- Assisting with the architecture, design and development of a cutting-edge policy and fund administration platform operating in both web and mobile environments
- Ensuring day-to-day operation and maintenance of the systems
- Implementation and testing of new services, features, product offerings and facilities
- Active ongoing professional career progression, with the active support of team leads and management
- Adherence to, and refinement of, development processes and governance, always striving for best practise

REQUIRED EXPERIENCE

- MSSQL, MySQL and PHP are a must
- Web frameworks and responsive design, specifically using Bootstrap, JS and Laravel
- .Net stack and C# experience a plus; experience in other languages and technologies will also be considered
- Working knowledge of web and network security issues as well as basic practises
- Knowledge of CI practises, such as unit / integration / regression testing, continuous deployment, issue and workflow tracking, and configuration management for multiple environments
- Experience with financial and / or insurance products or systems is a strong plus, such as unit trusts, endowments, life / term certain / living annuities, tax-free savings accounts and umbrella funds

REQUIRED QUALIFICATIONS

- Relevant tertiary qualification(s), such as Bachelor of Science (Computer Science, Information Systems)
- Any additional systems, technology, management or development qualifications will be considered

SYSTEM EXPOSURE

- MSSQL, MySQL and PHP are a must
- Web frameworks and responsive design, specifically using Bootstrap, JS and Laravel
- .Net stack and C# experience a plus; experience in other languages and technologies will also be considered
- Working knowledge of web and network security issues as well as basic practises

KEY COMPETENCIES

- Self-starter who is willing to take on responsibility for a wide array of tasks in a small, ambitious company
- Wide reader with a working knowledge of numerous relevant areas of technology and software development practises and trends
- Adventurous developer able to efficiently prepare proof-of-concepts for new technologies and designs
- Analytical thinker with creative problem-solving skills
- Ability to work in a team, and foster and positive and enthusiastic culture
- Ability to multitask, and work under pressure at times
- Honesty, integrity and mutual respect for co-workers
- Good written and oral communication skills
- Good organisational and presentation skills#

WHY THIS ROLE?

This is an opportunity to join a small nimble team that is looking to take on the big players and deliver a truly awesome platform. You will work with talented, motivated and ambitious developers who are looking to take the lead in the Insurance industry.
