

Aberdeen Standard SICAV I - World Equity Fund

This is a marketing communication. Please refer to the Prospectus of the UCITS/Information document and the KiID before making any final investment decisions

A Acc USD

Minimum Disclosure Document & General Investor report to 31 March 2022

Objective

The Fund aims to achieve a combination of growth and income by investing in companies listed on global stock exchanges, which follow the Investment Manager's Sustainable and Responsible Investment Equity Approach.

The Fund aims to outperform the MSCI AC World Index (USD) benchmark before charges.

Portfolio securities

- The Fund invests at least 70% of the Fund's assets in equities and equity related securities of

- companies listed on global stock exchanges including Emerging Market countries.
- The Fund may invest up to 10% of its net assets in Mainland China equity and equity-related securities, including through the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme or by any other available means.
- All equity and equity related securities will be consistent with Sustainable and Responsible Investment Equity Approach.
- In addition we apply a set of company exclusion which are related to the UN Global Compact, Tobacco Manufacturing, Norges Bank Investment Management (NBIM), Thermal Coal, Gambling, Oil & Gas and Weapons.
- Details of our Sustainable and Responsible Investment Equity Approach is published at www.abrdn.com under Sustainable Investing.
- Financial derivative instruments are exempt from approach.
- The Fund has adhered to its policy objective.

Performance

Cumulative and annualised performance

Performance Data: Share Class A Acc USD

Benchmark history: Benchmark - MSCI AC World Index (USD) from 31/05/2019. MSCI World Index (USD) from 01/02/1993 to 30/05/2019

Source: Lipper. Basis: Total Return, NAV to NAV, net of annual charges, gross Income reinvested, (USD).

Costs may increase or decrease as a result of currency and exchange rate fluctuations. This may impact what you might get back. "Fund (Net)" refers to the actual unit price performance of the shareclass shown; "Fund(Gross)" adds back charges such as the annual management charge to present performance on the same basis as the Benchmark / Benchmark / portfolio constraining benchmark. All return data includes investment management fees, operational charges and expenses, and assumes the reinvestment of all distributions. The returns provided do not reflect the initial sales charge and, if included, the performance shown would be lower.

Highest and lowest returns are those that are achieved during any single calendar year over the period specified.

Performance Chart : The investment performance is for illustrative purposes only. The investment performance is calculated by taking the actual initial fees and all ongoing fees into account for the amount shown and income is reinvested on the reinvestment date.

Past performance does not predict future returns.

Risk and reward profile

This indicator reflects the volatility of the fund's share price over the last five years. See Key Investor Information Document (KIID) for details.

Key risks

- The value of investments and the income from them can fall and investors may get back less than the amount invested.
- The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.

Management process

- The Fund is actively managed.
- The Sustainable and Responsible Investment Equity Approach applies our equity investment process, where companies we invest in are given an overall quality rating and a component of this is the ESG quality rating which enables portfolio managers to identify sustainable leaders and improvers. We also use our abrdn ESG House Score to identify and exclude companies exposed to the highest ESG risks within high and medium risk sectors.
- Engagement with company management teams is a part of our investment process and ongoing stewardship programme. Our process evaluates the ownership structures, governance and management quality of the companies.
- The Fund will target a lower carbon footprint compared to the benchmark as measured by the abrdn Carbon Footprint tool.
- The benchmark is used as a reference point for portfolio construction and as a basis for setting risk constraints and does not have any sustainable specific factors.
- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark or invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components and their weightings in the benchmark. Due to the active and sustainable nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark over the longer term.

Other	2,5	5,4
Cash	2,0	1,3

- (c) The fund invests in emerging market equities and / or bonds. Investing in emerging markets involves a greater risk of loss than investing in more developed markets due to, among other factors, greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- (d) The fund may invest in companies with Variable Interest Entity (VIE) structures in order to gain exposure to industries with foreign ownership restrictions. There is a risk that investments in these structures may be adversely affected by changes in the legal and regulatory framework.
- (e) Investing in China A shares involves special considerations and risks, including greater price volatility, a less developed regulatory and legal framework, exchange rate risk/controls, settlement, tax, quota, liquidity and regulatory risks.
- (f) Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities within the funds benchmark or universe of potential investments. The interpretation of ESG and sustainability criteria is subjective meaning that the fund may invest in companies which similar funds do not (and thus perform differently) and which do not align with the personal views of any individual investor.
- (g) The use of derivatives carries the risk of reduced liquidity, substantial loss and increased volatility in adverse market conditions, such as a failure amongst market participants. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.

Derivative usage

- The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Fund so that cash can be invested while the investment in equity and equity related securities is maintained.

¹The Historic Yield as at 28/02/2022 reflects distributions declared over the past twelve months as a percentage of the mid-market share price, as at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions.

²These are the maximum charges that we might take out of your money before it is invested. In some cases, the charges may be less and you should speak to your financial advisor about this.

³The Ongoing Charge Figure (OCF), is the overall cost shown as a percentage of the value of the assets of the fund. It is made up of the Annual Management Charge (AMC) of 1.50% and other charges. It does not include any initial charges or the cost of buying and selling stocks for the fund. The Ongoing Charges figure can help you compare the annual operating expenses of different funds.

This document serves as the Minimum Disclosure Document required in terms of the Advertising, Marketing and Information Disclosure Requirements for Collective Investment Schemes published by the Financial Sector Conduct Authority (FSCA).

Aberdeen Standard SICAV I is domiciled and regulated in Luxembourg and the Aberdeen Standard SICAV I sub-funds available for public sale in South Africa are approved by the Financial Sector Conduct Authority (FSCA). The Aberdeen Standard SICAV I sub-funds are Collective Investment Schemes in Securities. This document describes only one share class; other share classes may be available.

Collective Investment Schemes in Securities (CIS) are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. CIS are traded at ruling prices and can engage in borrowing and scrip lending. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity.

CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year.

Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees.

A schedule of fees and charges and maximum commissions is available on request from Aberdeen Asset Managers Limited ("AAML"), 10 Queens Terrace, Aberdeen, AB10 1XL, Scotland and are also available on www.aberdeenstandard.co.za. Additional adviser fees may be paid and if so, are subject to the relevant regulatory disclosure requirements.

AAML does not provide any guarantee either with respect to the capital or the return of a portfolio.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period.

Performance shown is that of the Fund and individual investor performance may differ as a result of initial fees, actual investment date, date of any subsequent reinvestment and any dividend withholding tax.

For any additional information such as fund prices, brochures and application forms please go to www.aberdeenstandard.co.za.

Aberdeen Standard SICAV I has been authorized for public sale in certain jurisdictions and private placement exemptions may be available in others. It is not intended for distribution or use by any person or entity that is a citizen or resident of or located in any jurisdiction where such distribution, publication or use would be prohibited. Tax treatment depends on the individual circumstances of each investor and may be subject to change in the future. You should obtain specific professional advice before making any investment decision.

"This portfolio may be closed to new investors, in accordance with what sets out in the relevant legal documents, in order to be managed in accordance with the mandate. Issued by abrdn Luxembourg S.A. 35a, Avenue J.F. Kennedy, L-1855 Luxembourg. No. S00000822. Authorised in Luxembourg and regulated by CSSF." Aberdeen Asset Managers Limited (AAML) holds a Category I financial services provider (FSP) licence in terms of the Financial Advisory and Intermediary Services Act, 2002, (FAIS) under licence 43675 and also holds professional Indemnity Insurance. The FSP licence entitles AAML to provide "intermediary services" (as defined in FAIS) to South African clients in relation to shares; money market instruments; debentures and securitised debt; warrants, certificates and other instruments; derivative instruments; participatory interests in Collective Investment Schemes; foreign currency denominated investment instruments; long-term deposits; and short-term deposits.

For more detailed information about Morningstar's Analyst Rating, including its methodology, please go to: <http://corporate.morningstar.com/us/documents/MethodologyDocuments/AnalystRatingforFundsMethodology.pdf>

The Morningstar Analyst Rating for Funds is a forward-looking analysis of a fund. Morningstar has identified five key areas crucial to predicting the future success of a fund: People, Parent, Process, Performance, and Price. The pillars are used in determining the Morningstar Analyst Rating for a fund. Morningstar Analyst Ratings are assigned on a five-tier scale running from Gold to Negative. The top three ratings, Gold, Silver, and Bronze, all indicate that our analysts think highly of a fund; the difference between them corresponds to differences in the level of analyst conviction in a fund's ability to outperform its benchmark and peers through time, within the context of the level of risk taken over the long term. Neutral represents funds in which our analysts don't have a strong positive or negative conviction over the long term and Negative represents funds that possess at least one flaw that our analysts believe is likely to significantly hamper future performance over the long term. Long term is defined as a full market cycle or at least five years. Past performance of a security may or may not be sustained in future and is no indication of future performance. For detailed information about the Morningstar Analyst Rating for Funds, please visit <http://global.morningstar.com/managerdisclosures>

Representative Office: Prescient Management Company(RF)(PTY) LTD is registered and approved under the Collective Investment Schemes Control Act (No .45 OF 2002). Registration Number 2002/022560/07. Physical Address :Prescient House, Westlake Business Park, Otto Close,Westlake,7945,South Africa.
