(1) OCF (Ongoing Charges) includes the management fee and other fees and expenses based on expenses for the past fiscal year and excludes transaction costs. For funds with less than one year of operations and funds with a management fee change within the past year, the OCF is estimated. These charges reduce the potential growth of an investment in the Fund. Currency and foreign exchange fluctuations may increase or decrease costs.

(2) **Linked Index:** The Linked Global SICAV Index is represented by the performance of the S&P Developed Property Index through 6/30/2009, the FTSE EPRA Nareit Developed Index (Net) thereafter.

The Fund is actively managed. The composition of the Fund is not constrained by the composition of the benchmark.

(3) Effective September 30, 2022. Product categorised based on the Sustainable Finance Disclosure Regulation (SFDR).

A decision to invest in the Fund should take into account all of the characteristics and objectives of the Fund as described in its prospectus. Additional information can be found on the firm's website at the following link (<https://www.cohenandsteers.com/topics/esg-integration>).

(4) In USD, or the equivalent in any other currency (if applicable), in which case the currency conversion costs shall be borne by the investor. These minima may be waived or varied.

Investment Objective and Philosophy

The Cohen & Steers SICAV Global Real Estate Securities Fund (the "Fund") seeks current income and capital appreciation by investing in a diversified portfolio of REITs and other publicly traded real estate companies located around the world, including both developed and emerging markets. The Fund seeks to identify companies that we believe have superior growth prospects and attractive valuations. We believe the global markets offer the potential for superior returns based on variations in regional economic and property sector cycles, the diversity of business models, the lack of uniform reporting and disclosure standards, and the growing quality of real estate and securitization in many countries. We believe there are alpha generation opportunities for well resourced, disciplined, active managers.

Investment Approach

Cohen & Steers employs an integrated, relative value investment process. A proprietary valuation model ranks global securities on price/net asset value ("NAV") and price/dividend discount model value ("DDM"), which we believe are the primary factors that drive global real estate security values. The company research process includes an evaluation of management, strategy, property quality, financial strength and corporate structure. Judgments with respect to risk management, diversification, liquidity and other factors overlay the model's output and drive the portfolio managers' investment decisions.

Past Performance does not predict future returns.

Performance returns stated net of fees. There is no guarantee that any historical trend illustrated in this report will be repeated in the future, and there is no way to predict when such a trend will begin. There is no guarantee that any market forecast in this report will be realized. **Current performance may be lower or higher than the performance quoted.** The investment return and the principal value of an investment will fluctuate and shares, when redeemed, may be worth more or less than their original cost. Periods greater than 12 months are annualized. Returns are historical and include changes in share price and reinvestment of all distributions. Month-end performance information can be obtained by visiting our website at [cohenandsteers.com](https://www.cohenandsteers.com). There is no guarantee that any investment objective will be achieved. If the currency in which the past performance is displayed differs from the currency of the country in which an investor resides, then the investor should be aware that due to the exchange rate fluctuations the performance shown may be higher or lower if converted into the investor's local currency. An investor cannot invest directly in an index, and index performance does not reflect the deduction of fees, expenses or taxes.

Morningstar Ratings™

Overall	3 Year	5 Year	10 Year

Past performance does not predict future results. Morningstar rated this fund among 581, 581, 502 and 312 Property - Indirect Global funds for the overall rating and the 3-, 5- and 10- year periods ending in 30/6/26, respectively. The Overall Morningstar Rating™ is derived from a weighted average of the performance figures associated with a fund's 3-, 5- and 10- year periods Morningstar Rating™ metrics. Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.

The mention of specific securities is not a recommendation or solicitation to buy, sell or hold any particular security and should not be relied upon as investment advice. Weights may vary over time and holdings are subject to change without notice. The investment being promoted is based on the acquisition of shares in a fund and not in a given underlying asset. Due to rounding, values might not add up to 100%. An investor cannot invest directly in an index, and index performance does not reflect the deduction of fees, expenses or taxes. Characteristics Source: FactSet (dividend ex-date methodology). Certain characteristics are estimates based on analysis by Cohen & Steers. Fund characteristics may vary over time. Cohen & Steers portfolio and index ESG scores are the weighted averages of the ESG scores of the underlying securities, which are proprietary calculations utilizing data sourced from Cohen & Steers' proprietary research and MSCI ESG Research, LLC. Elite Ratings are based on FundCalibre's research methodology and are the opinion of FundCalibre's research team only. The Elite Rating is based on a proprietary assessment conducted by FundCalibre which measures historical risk-adjusted performance along with qualitative factors. To be considered for the Elite Rating a fund must have a track record of at least 3 years. A fee was paid to FundCalibre for rights to use its award logo in promotional material.

Weighted Avg Market Cap—The weighted average market capitalization refers to a type of stock market index construction that is based on the market capitalization of the index's constituent stocks. The weighted average market capitalization is determined by multiplying the current market price by the number of outstanding shares and then taking an average to determine the weighting.

% Debt to Asset Value—Debt to Asset Value is the weighted-average percentage of assets financed by debt of the underlying fund companies, on a portfolio and benchmark level. Calculated by adding short-term and long-term debt and then dividing by the company's total assets.

Dividend Yield—The dividend yield, expressed as a percentage, is a financial ratio (dividend/price) that shows how much a company pays out in dividends each year relative to its stock price.

Share Class Inception Date: 31 June 2009. Available as an accumulating share class and distributing share class. Fund prospectus details the 8 share classes of this fund and specifies availability to investors/investor qualifications. This fund's asset allocation is 100% equity as of date of document.

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CISs are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs. During the phase in period TERs do not include information gathered over a full year. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER.

Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks, and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Please note that all documents, notifications of deposit, investment, redemption and switch applications must be received by State Street Bank International GmbH, Luxembourg Branch, by or before 11:00 a.m. Central European Time for settlement within two business days following the dealing day. Where all required documentation is not received before the stated cut-off time Prescient shall not be obliged to transact at the net asset value price as agreed to. Funds are priced each Business Day (as defined in the prospectus) at 12:00 p.m. Central European Time. Performance has been calculated using net NAV. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available on request. For any additional information such as fund prices, brochures and application forms please go to [Funds - Cohen & Steers](#).

Glossary Summary: Annualised performance: Annualised performance shows longer term performance rescaled to a 1-year period. Annualised performance is the average return per year over the period. Actual annual figures are available to the investor on request.

Highest & Lowest return: The highest and lowest returns for any 1 year over the period since inception have been shown. NAV: The net asset value represents the assets of a fund less its liabilities.
