

Maseera Take

“Be yourself, everyone else is already taken.”
- Oscar Wilde

Maseera obtained her BCom degree in Management and Finance from the University of the Western Cape. She joined the graduate programme on 23 January 2023. Her first rotation commenced in the Prescient Fund Services (PFS) and she is currently part of the Fund Accounting Team – Segregated, learning about the role of a Fund Accountant.

Her journey as a Fund Accountant has been interesting and challenging thus far, but she is excited to keep going and motivated to keep challenging herself going forward. She also finds herself interested in understanding how trading works.

In her spare time, Maseera enjoys going to the mall, trying out new cuisine and watching the latest horror movies. She likes to stay home and watch Netflix, too. She loves travelling, swimming, playing online games and socializing.

What excites you the most about investment/financial markets?

Financial markets are erratic and ever-changing – this environment creates the opportunity to continuously acquire knowledge about the market, economy and investment strategies. It also offers a wide range of investment options, allowing investors to take risks which can lead to substantial gains.

Why do you believe Prescient’s Graduate Programme can help you achieve your current career goals?

Being a young graduate with no working experience and an undecided career path can be very overwhelming. The Graduate Programme allows me to overcome these challenges as each rotation exposes me to new skills and allows me to gain firsthand experience from different departments.

What advice would you give a new graduate who is starting their career?

It is OK to not know everything! Ask questions and do not limit yourself. Make connections and build relationships with those around you.
