## Other information

**ISIN:** ZAE000347043

**JSE:** 91DINC

**Bid/Offer Spread:** New Fund

**Income Distribution:** New Fund

## A' class unit charges

**Initial fund fee:** 0.00%

**Annual management fee:** 0.45%

**Total expense ratio (TER):**

**Transaction cost (TC):**

**Total investment charge (TIC):**

TER, TC, TIC figures will be available 12 months after launch.

Fees rates are shown excluding VAT. TERs are shown including VAT. A higher Total Expense Ratio (TER) does not necessarily imply a poor return, nor does a low TER imply a good return. Where Funds invest in the participatory interests of foreign collective investment schemes these may levy additional charges which are included in the relevant TER. The ratio does not include transaction costs. The current TER cannot be regarded as an indication of the future TERs.

## Fund features

An actively managed, well diversified fixed income portfolio with multiple sources of return

A global approach to fixed interest investing, capturing opportunities that South African and global fixed interest markets offer

## Objectives and investment policy summary

The investment objective of the Underlying Fund is to provide investors with a high level of income while seeking opportunities to maximise capital growth.

The portfolio will, apart from assets in liquid form, consist solely of participatory interests in the Ninety One Diversified Income Fund

To achieve its objective, the Underlying Fund will invest in a broad range of fixed income instruments and other securities.

## Annualised performance (%)

Not available – New Fund, data will be available 12 months after launch.

## Asset allocation (%)

Asset allocation will be available on the next MDD

## Fund statistics (%)

The Management Company and Trustee are registered and approved under the Collective Investment Schemes Control Act (No.45 of 2002). Prescient is a member of the Association for Savings and Investments South Africa.

### Important information

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CISs are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Management Company. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER.

A feeder fund is a portfolio that invests in a single portfolio of a collective investment scheme, which levies its own charges, and which could result in a higher fee structure for the feeder fund.

Where a current yield has been included for Funds that derive its income primarily from interest bearing income, the yield is a weighted average yield of all underlying interest-bearing instruments as at the last day of the month. This yield is subject to change as market rates and underlying investments change.

Exchange traded funds are listed on an exchange and may incur additional costs.

Though the Management Company has appointed Ninety One SA (Pty) Ltd, FSP 587, an authorised financial services provider, under the Financial Advisory and Intermediary Services Act, 2002 as its investment manager, the Management Company retains full legal responsibility for any third party-named portfolio. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks, and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees.

Performance has been calculated using net NAV to NAV numbers with income reinvested.

Exchange Traded Funds vs Unit Trusts: Whilst both unit trusts and ETFs are regulated and registered under the Collective Investment Schemes Control Act, ETFs trade on stock exchanges just like any other listed, tradable security. Actively managed ETFs (AMETF) offer exposure to CIS and differ from other ETFs which track indices because the fund manager actively selects and adjusts the fund's holdings and asset allocation to try to outperform a benchmark. Unlike a unit trust, which can be bought or sold only at the end of the trading day, an ETF can be traded intraday, during exchange trading hours.

For any additional information such as fund prices, brochures and application forms please go to [www.prescient.co.za](http://www.prescient.co.za).

This portfolio operates as a white label fund under the Prescient ETF Scheme, which is governed by the Collective Investment Schemes Control Act.

The Prescient ETF Programme Memorandum and the relevant supplement contains detailed information on the AMETF. The MDD must be read in conjunction with these documents. The documents may be found on Prescient's website.

The Management Company (Prescient) and Trustee are registered and approved under the Collective Investment Schemes Control Act (No.45 of 2002). Prescient and Ninety One are members of the Association for Savings and Investments South Africa.

The Management Company may close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate.

This document is for information purposes only and does not constitute or form part of any offer to issue or sell or any solicitation of any offer to subscribe for or purchase any particular investments. This document must be read in conjunction with placing document or pricing supplement, which contains detailed information on the AMETF.
