

Retirement Fund Savings Component - Withdrawal Form (Pre-Retirement)

IMPORTANT CONSIDERATIONS PRIOR TO TAKING A CASH WITHDRAWAL PRIOR TO RETIREMENT

Important considerations:

The legislature has introduced the savings component for emergency funding. Emergency funding is typically a situation wherein you might find yourself in need of cash for an important life event, such as for example paying for your child's education fees, a medical emergency, loss of income.

Pre-retirement withdrawals from the savings component will be taxed at your MARGINAL tax rate. This is the rate that your salary is taxed at. SARS will deduct any outstanding taxes from the amount requested and this could lead to you receiving less money than expected. We strongly encourage you to discuss this withdrawal with your financial advisor.

If you have multiple retirement fund investment accounts, and would like to withdraw from more than one account, please complete one withdrawal form per investment account.

- **Prescient Retirement Annuity or Prescient Preservation Fund Withdrawals**
Instructions to be submitted to retirement@prescient.co.za
- **Prescient Umbrella Provident Fund Withdrawals**
Instructions to be submitted to ebadmin@prescient.co.za

Turn around time for processing is 15 days on condition that there are no outstanding requirements or delays beyond our control.
Pro-rata admin fee will be deducted when processing the withdrawal.

IMPORTANT TAX INFORMATION

The Administrator is required by law to obtain a tax directive from SARS when making a benefit payment (withdrawal, retirement, transfer) from a product registered in terms of the Pension Funds Act. The Administrator will apply for a tax directive and once issued by SARS the Administrator will deduct the amount as requested by SARS after which payment to the beneficiary (a member, a non-member spouse, an annuitant or an executor of an estate) is made. Tax directives may not be cancelled.

The Administrator procedure is as follows:

- Receipt of a fully completed instruction form and all documentation required to be submitted.
- The Administrator will calculate the benefit due and request a disinvestment from the underlying investment product.
- On receipt of the disinvestment in the product's bank account a tax directive will be applied for from SARS.
- SARS issues a tax directive normally within 2 business days if submitted electronically. If submitted manually (required for emigration) SARS will take a minimum of 21 business days before issuing the tax directive. SARS may have additional requirements, and, in such instance, there is an additional 21 working days after submission of the additional requirements.
- On receipt of a tax directive, the Administrator will deduct the tax from the benefit and pay the balance of the benefit to the beneficiary.

If you are not in agreement with SARS's calculation of the tax it is your responsibility to resolve the matter with SARS directly. If you are not able to resolve the matter the Trustees/Administrator urge you to consult a tax practitioner.

SARS will indicate by way of an additional document appended to the tax directive whether or not there are outstanding taxes (IT88L) on record.

The content above is provided as an information guide only and should not be construed as tax advice or used as a legal reference. The Fund, Trustees, Sponsor and Administrator accepts no responsibility for any errors, omissions or misstatements, or any actions taken or not taken on the basis of the content provided.

An application to SARS for a tax directive may be rejected by SARS. The Administrator will not be able to proceed with the lump sum payment and will only be able to re-apply for a new directive once you have resolved the issue directly with SARS.

If you want to dispute a tax directive you must take such dispute up with SARS directly. It is important to note that tax legislation requires us to deduct tax according to the tax directive and pay it to SARS regardless of whether or not the dispute has been resolved.
